**We write Clojure at The Climate Corporation,  
and we're hiring! Come work with us!**

Especially now that Bayer is buying us!

It's a pretty cool place to work, we've even got a giant globe to play with.

Clojure is a lisp.

Clojure is Lisp on the JVM.

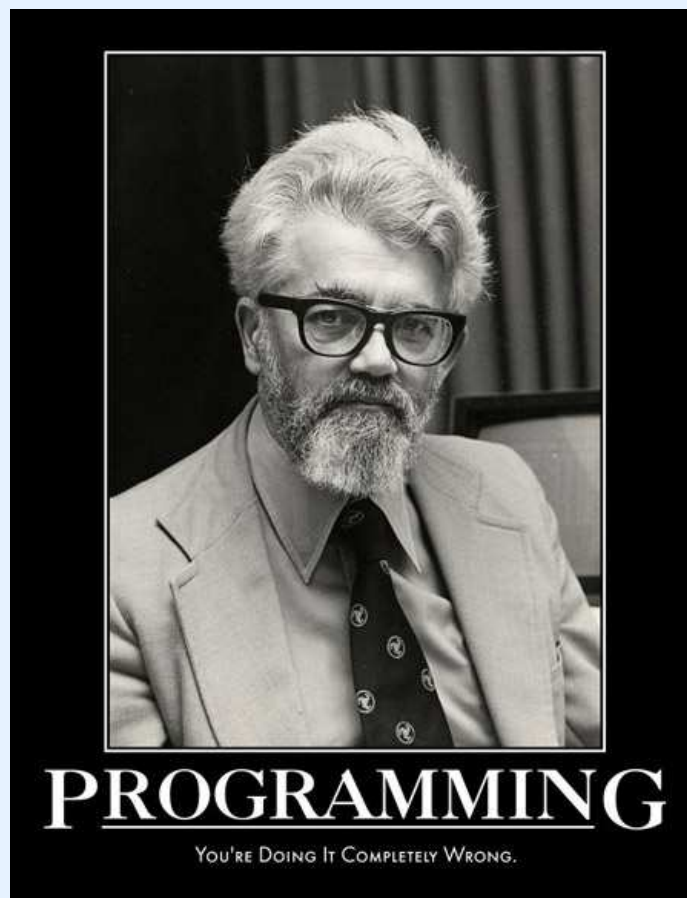

Scala is also on the JVM.

But Scala isn't a lisp.

Apache Spark is really cool, but it's in Scala.
